“ I was reminiscing the years that I have known Paula and of course through her I got to know her family. Mr. Brantley truly ranks among the top five sweetest souls I have ever had the honor of knowing and sharing a part of my life with. He had a profound positive effect on ever life he touched. The way he lived his life reflected his inner most being. A loving, honorable man that will be truly missed but heaven just became a wee bite brighter! Mrs. Brantley, Connie, Don, Paula, I know how deeply you all will miss him; you were so very blessed to have had him in your life. He was an angel on loan from God to all of us here. I love all of you so much and will remember you in prayer for the strength and courage you will need as you face life without dad.

“ I was so saddened to learn this week that Jr. had passed last year. Though we hadn't seen him and his immediate family in so many years, I remember him fondly and I can imagine the void his passing has left in your life. My wife, Alice, and I send our condolences to you and your family.
