“ *Memories of Maurine ... A precious ❤️ dear friend who had a kind, deeply generous heart. Maurine's genuine love for people grew from tragic losses that began when she was three (Paul was a new born, just home from the hospital that day) with her mother's death - followed two years later with her father's death. Other significant losses include her grandmother, Mamma Croft - and her precious daughter, Lisa. But ... there were other deep losses. Maurine became a nurse, giving her patients and their families professional care and personal dedication. Maurine continued throughout life to impact the lives of others — provide gifts, give encouraging thoughts, visit, post condolences, send get-well and birthday and anniversary cards, listen, talk and laugh often, and genuinely care. Maurine was a survivor: strong, extremely brilliant, determined. I am thankful Maurine was a beloved part of my family (my grandmother, mom, dad, and others) for over 50 years. Maurine ... we love you ... we will miss you. ... Patty and Family*
